

Application Hosting

Effortlessly run your critical business applications with secure, reliable, and compliant application hosting solutions

Managing critical applications like Microsoft 365, Dynamics, Sage, and SYSPRO on-premises can be costly and complex, with challenges in compliance, security, performance, and availability. Many businesses struggle with the IT infrastructure needed to keep these systems running smoothly.

CyberlinkASP simplifies these challenges by offering a reliable, secure, and cloud-based hosting solution designed to address these pain points. Our service ensures seamless performance, data accessibility, and compliance, so you can focus on what matters most—growing your business with peace of mind.

Features

High Availability & Performance

With a 99.99% uptime guarantee, your critical applications remain accessible and perform seamlessly. Scalable resources adapt to your business's growth and changing demands.

Security & Compliance

Enterprise-grade security, compliance with standards like GDPR, HIPAA, and SOC 2, and continuous monitoring to protect data and prevent downtime.
