Business Continuity & Disaser Recovery

Reliable back-up, quick recovery, and 24x7 monitoring to protect your data and minimize downtime no matter what happens

Businesses today face increasing threats from natural disasters, cyberattacks, and system failures. The consequences of downtime can be catastrophic, resulting in lost revenue, damaged reputations, and non-compliance with regulatory requirements.

To safeguard your critical data and ensure your systems remain operational during disruptions, CyberlinkASP offers comprehensive Business Continuity and Disaster Recovery solutions. Our services are designed to help businesses quickly recover, mitigate risks, and stay compliant with industry regulations— giving you peace of mind that your systems and data are protected and recoverable, so you can focus on what matters most: growing your business.

Features

Off-Site Backups and Automated Failovers
Safeguard your critical data with off-site backup solutions that ensure your systems can automatically failover, minimizing downtime and data loss.

Rapid Recovery Plans
Tailored recovery plans designed for desktop and application environments, allowing you to quickly resume operations in the event of an emergency.

Scalable Solutions
Scalable offerings that cater to data-heavy operations, ensuring your business has the resources it needs for seamless continuity as it grows.

Compliance and Security
Meet industry regulations and secure your data with end-to-end encryption and compliance-focused solutions, ensuring you're always audit-ready.
